STANDARD FEATURES

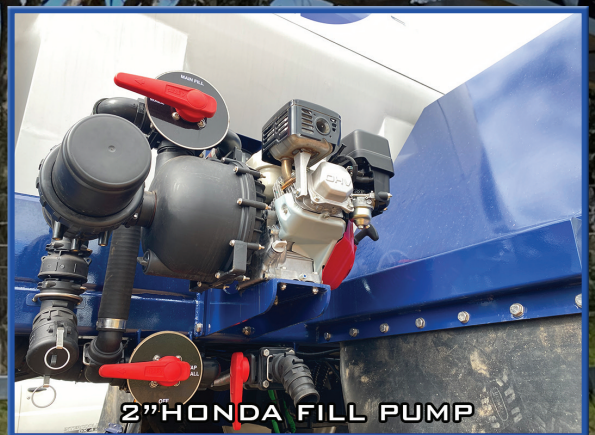

2 YEAR STRUCTURAL WARRANTY

- Engineered structured booms
- Recirculating boom system
- Stainless steel wet booms
- High water rate capability
- Electric hydraulic control
- Soft boom fold
- Air switching
- Single joy stick operation
- A-frame suspension
- YAW control
- Independant boom tilt
- MSP400 centrifugal pump
- Spray at reduced width
- 600L flush tank
- ARAG IBX 100 rate controller
- Simple plumbing operation
- 3 metre aluminium break away
- Hydraulic centre roll suspension
- Large 100mm pressure gauges
- Greasable pivot points
- A frame tool box
- Tank sprinklers
- Tank agitators
- Nozzles protected inside boom
- 3 Stage filtration
- All stainless steel fasteners
- All viton seals
- Oversize sign
- Flashing beacon
- High quality spray hose
- 5 x Hydraulic accumulators
- Sandblasted & sealed
- 2 Pack primer & top coat
- Sealed control box
- Fence line nozzles
- Air bag suspension
- Fold away steps

OPTIONAL UPGRADES

- 100-160ft Structured booms
- NORAC auto height control - 5 sensor system
- 2" Honda fill pump with filtration
- 3" Honda fill pump with filtration
- 2" Hydraulic fill pump
- 3" Hydraulic hydraulic fill pump
- 12V chemical transfer pump
- Up to 12 spray sections
- 3 Tier spray system
- 100 Litre chemical hopper with stainless steel gauge
- Boom lights
- Work area lights
- Tail lights
- ARAG VISEO tank level sensor
- Flush on the go
- 300L chemical storage tank
- Micromatic coupling and hose
- Main tank fill auto shut off
- Electric tank drain

EXPERIENCE THE NEXT GENERATION

The Calibre Trailed Boomspray is unrivalled with its features and second-to-none with its performance.

Compact design with the ultimate boom ride separate calibre from the rest of the competition. Cutting edge performance with high capacity water rates will transform the efficiency of your spraying operation.

Engineered for tough Australian conditions, our structured booms create exceptional contour following and stability.

Simple decontamination and an easy to use plumbing layout make this machine extremely user friendly and efficient.

The air express system with recirculating booms allow the boom lines to be primed or flushed out without having to spray on the ground. Experience the next generation.
